Comment: I would like to say that while it is great to have the same laws for both sides of Caddo and Toledo, the rules still seem way too complicated; especially the Largemouth Bass Regs. I feel there should be a minimum length on all fish; give em' a chance to grow. But all this about keepin five over this length or 10 under that length is just too much to keep up with. Let alone trying to make sure your on the side of the lake that corresponds with your catch. I think Crappie outta be 10" to keep because they arent big enough to fillet under that size. I have heard of the science behind the slot for bass but the fishing was better for numbers before the Florida bass were stocked. We didnt have the size but we had the numbers. In a nut shell please simplify our game and fish laws so we don't have to hire a paralegal to go hunting and fishing with us. Thanks.
